EDUCATION

Dr. Babasaheb Ambedkar Technological University
Bachelor of Technology in Computer Engineering
CGPA - 8.35
2023

Shri Neminath Jain High School
HSC Science
Percentage - 70.15%
2019

Shardadevi Dnyanvikas Mandir
SSC
Percentage - 90%
2017

TECHNICAL SKILLS

- C++
- C
- Python
- OOP
- Data Structures
- MySQL
- HTML
- CSS
- Javascript
- Microsoft Office
- Git
- Artificial Intelligence

TRAININGS

Completed a foundation level 6 months training program in **Artificial Intelligence** domain held by **Edunet Foundation.**

ACHIEVEMENTS

We had participated in **IOT Mini Project Exhibition** organized by **Department of Computer Engineering, DBATU** and through this exhibition our team was declared as **1st Runner Up.**

EXPERIENCE

Data Science And Business Analytics Intern
The Sparks Foundation
December 2021 - January 2022

- Implemented decision tree algorithm on standard iris dataset.
- **Technologies Used:** Python/Decision Tree Classifier

Python Intern
TechEdu
October 2021 -November 2021

- Implemented python programs for guessing a correct number, guess correct number by computer, developed a basic program for library management system, a QR code generator and a game of rock paper, scissor.
- **Technologies Used:** Python/Object Oriented Programming

Web Development Intern
TechEdu
August 2021 - September 2021

- Developed basic web pages, Tic-Tac-Toe game and music player
- **Technologies Used:** Html/CSS/JavaScript

PROJECTS

Smart Blind Stick
Developed a smart blind stick using IOT devices
•**Technologies Used:** C++ , Arduino UNO R3, Ultrasonic Sensor, Piezzo Buzzer

Spam Mail Prediction
Spam mail prediction system using machine learning with python which classifies spam and ham mails.
•**Technologies Used:** Python , Logistic Regression Algorithm

Iris Flower Classification
Studied iris flower dataset and predicted results for test data.
•**Technologies Used:** Python , Decision Tree Algorithm

Breast Cancer Data Classification
Classified provided dataset on basis of cancerous and non cancerous cells.
•**Technologies Used:** Python , Logistic Regression Algorithm
